"Overall, very happy with the service. From on boarding to now, the team is very helpful. Even when contacted very late, you prioritized and incorporated last-minute changes as well. It is very helpful to us as it is saving a lot of cost with printing all the menus (with any changes or not available items) & guest are happy with the application."

PROMOTIONS

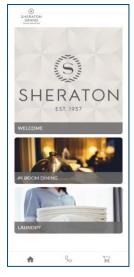

"I feel privileged to recommend the services of Vserve Pro-Techt. I have worked with the team to develop a QR code service that would help us deliver contactless service in this pandemic to our guests at the resort. We have worked through some fantastic options for layout, styles, and design. The team has always been supportive in understanding our requirements and it has been fun to work with them."

RESTAURANTS

"It's a great experience to have a contactless experience for our guests, they feel more comfortable with the ordering process. Its quick, easy, and user-friendly. Even at the backend, staff is stress-free in their work areas. IRD Ordering is made simple and the access to the hotel's information is on the move. The onboarding team is of great support and the transition period was very smooth. It is a must have app for every hotel. Special thanks to the client success team on having a very positive approach and being there for us in every step to move forward"

"The Vserve Pro-Techt team is very supportive during execution of this project. As we navigate through difficult times, I would say thank you to the team for a great support, patience and cooperation. I hope Courtyard can get the maximum benefit from this platform to provide services to our guest and bring it to the next level."

DANIEL BARTOLOMEUS – OPERATIONS

"Vserve Pro-Techt - approved as Marriott's Contactless system gives a new experience to our guests by seeing detailed hotel information, TV Channels, Maps, Menu & for ordering directly from guest devices. The support team swiftly responds, and we are able to customize the system based on property needs."

RESTAURANTS COMMITMENT TO CLEAN

BAR

"Seamless onboarding and simulation through Video Calls. The platform accessible through QR Codes not only helps in Menu uploading but also features all information about the property like GSD or Factsheets and upcoming promotions so the inhouse guests are made aware. It also allows you to start taking orders online.
